Derrick Allred, MD

Dr. Allred is an Associate Professor (Clinical) in the Department of Physical Medicine and Rehabilitation at Craig H. Neilsen Rehabilitation Hospital at the University of Utah. He currently serves as the Brain Injury Medical Director and is board certified in Physical Medicine & Rehabilitation, Electrodiagnostic Medicine, and Brain Injury Medicine. He currently serves as the Fellowship Director for the ACGME-accredited Brain Injury Fellowship training program. Raised in Southern Utah, he completed his undergraduate and medical degrees at the University of Utah, followed by his residency in Physical Medicine and Rehabilitation at the University of Texas Health Science Center in San Antonio where he served as the Residency Program Director for four years.

Nethra Ankam, MD

Dr. Ankam is a Professor of Rehabilitation Medicine at Jefferson. She has had a purpose driven career in medical education, with the goal to teach medical students how to incorporate the goals of and function of the patient into their care plans. To that end, she has developed cross-disciplinary ties with all aspects of the curriculum first as director of the undergraduate medical education (UME) for Rehabilitation Medicine, Wellness Thread Director for JeffMD (one of 12 threads in the UME curriculum), and as co-faculty lead of the Jefferson Health Mentors Program (a required interprofessional education curriculum for over 800 students at Jefferson).

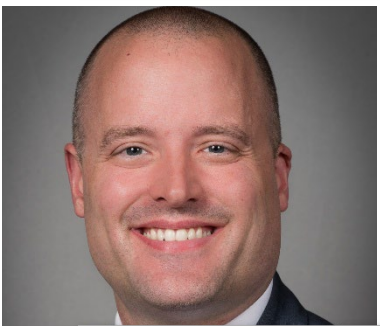

Harris Choudry, MD, MPH

Dr. Choudry is a board-certified physiatrist who sees patients across the rehabilitation spectrum. He helps run the outpatient prosthetics, orthotics, bracing, and cancer rehab clinics at Burke Rehab. He sees orthopedic, musculoskeletal, and neurological rehab patients as well. Dr. Choudry is passionate about education for patients, students, and residents. He oversees education for the PM&R residency program on campus and locally for the NY Society of PM&R. He is involved in determining educational content for national organizations such as the AAP and AAPM&R. He teaches at local medical schools, where he organizes workshops and lectures on neuromusculoskeletal topics.

Clinton Faulk, MD

Dr. Faulk graduated from the East Carolina University (ECU) Physical Medicine and Rehabilitation (PM&R) training program as Chief Resident in 2005. He has transitioned through several leadership roles in the department over the past 20 years at ECU including Assistant Residency Program Director, Residency Program Director, Outpatient Medical Director, Medical Student Clerkship Director, Vice Chair for PM&R, and Wound Care Center Medical Director. Currently he serves as the PM&R Department Chair, Rehab Hospital Medical Director and PM&R Chief of Service. Clinical roles have included Inpatient General Rehabilitation, Outpatient Wound Care and Hyperbaric Medicine, Amputee Clinic, EMG/NCS's, Inpatient PM&R Consultations and several others with a clinical focus that continues with Inpatient Rehabilitation and Wound Care and Hyperbaric Medicine. He has participated in many leadership training opportunities some of which included the AAP's Program For Academic Leadership (PAL), AAPM&R Medical Director Course, lead physician for ECU's Physician Leadership Academy, ECU Leader as Coach Program, and ECU Health's Redesigning Education to Accelerate Change in Healthcare (REACH) and Teachers Quality Academy participant. Dr. Faulk continues to participate in mentoring for both PM&R residents and medical students that also includes Research Distinction Tract for ECU medical students.

Braford Landry, DO, MSPT

Dr. Landry is an Assistant Professor and the Residency Program Director at the Zucker School of Medicine at Hofstra/Northwell Health PM&R program. He holds a Master's in Physical Therapy from the University of Hartford and earned his Doctor of Osteopathic Medicine degree from the New York College of Osteopathic Medicine, where he also completed a predoctoral fellowship in Neuromusculoskeletal Science. He then completed PM&R residency at Mayo Clinic, followed by a fellowship in Pediatric Rehabilitation Medicine. Since returning to New York in 2018, Dr. Landry has been instrumental in expanding pediatric PM&R services within the Northwell Health system. His clinical practice includes inpatient consultations and outpatient clinics focused on neuromuscular disorders, cerebral palsy, spasticity management, chronic pain, and functional neurological disorders. Throughout his career he has been actively involved in health policy and medical education, serving on national committees and mentoring future physiatrists. His research interests include 3D printing applications in rehabilitation, global health initiatives, and pharmacogenomic testing in pediatric pain management. Beyond medicine, Dr. Landry resides in Northport, NY, with his wife, three children, two dogs, and a revolving door of exchange students from Europe.

Chrissa McClellan, PT, MD

Dr. McClellan, Associate Professor at the University of Missouri Department of PM&R, practices general Physiatry and specializes in Electrodiagnostic Medicine. She is a Diplomate of the American Board of PM&R and the American Board of Electrodiagnostic Medicine and is the Lab Director of University of Missouri PM&R Electrodiagnostics laboratories. She is the director of the resident electrodiagnostics curriculum and co-director of the resident ultrasound curriculum at the University of Missouri. She has taught and mentored several medical students and physiatry residents and is the PM&R Student Interest Group advisor. She is the current Chair of the Lab Accreditation Committee for the AANEM and is also an active member in the State Liaison Committee, advocating for improved quality in electrodiagnostics on Capitol Hill. Her clinical and research interests include electrodiagnostic medicine, neuromuscular ultrasound, hip fracture and trauma rehabilitation, and lifestyle medicine.

## 2026 – 2028 Class

| First Name | Last Name | Degrees | Current Institution        | Work Email                     | Work Phone   |
|------------|-----------|---------|----------------------------|--------------------------------|--------------|
| Sharon     | David     | MD      | Mayo Clinic                | david.sharon@mayo.edu          | 480-342-4627 |
| Kelly      | Heath     | MD      | University of Pennsylvania | kelly.heath@va.gov             | 215-823-6742 |
| Max        | Hurwitz   | DO      | University of Pittsburgh   | hurwitzmb2@upmc.edu            | 4125137403   |
| Terrence   | Pugh      | MD      | Carolinas Rehabilitation   | Terrence.Pugh@atriumhealth.org | 7043558508   |
| Sara       | Salim     | MD      | University of Rochester    | sara_salim@urmc.rochester.edu  | 5853581155   |

Sharon David, MD

Dr. David currently serves as the Associate Chair of Mayo Clinic Platform, Medical Director of the Multidisciplinary Amputee Clinic and Medical Director of Inpatient Consults at Mayo Clinic Arizona. While she is a native east coaster, she is currently living in Phoenix, having successfully found freedom from the winter. She is Board Certified in Physical Medicine and Rehabilitation. She is currently enrolled in Mayo Clinic's AI in Healthcare Certificate Program. She has a keen interest in predictive AI and wearable technology. She is also passionate about promoting PMR; therefore, she enjoys her role in the acute care world where she interacts with other specialties daily. In her free time, she loves to cook and has recently become very enamored with different food plating techniques and food presentation. If she weren't a physician, she would either be a middle school teacher or own a food truck that would focus on culinary presentation of Indian- Latin American fusion dishes.

Kelly Heath, MD

Dr. Heath is an Associate Professor (Clinical) in the Department of Physical Medicine and Rehabilitation at the University of Pennsylvania. She currently serves as a Vice Chair in Physical Medicine and Rehabilitation at the University of Pennsylvania. She also serves as the Chief of Rehabilitation at the Corporeal Michael J Crescenz VAMC. She is board certified in Physical Medicine & Rehabilitation and Brain Injury Medicine. She currently serves as the Fellowship Director for the ACGME-accredited Brain Injury Fellowship training program. She completed her undergraduate education at the University of Michigan, her medical degree at Drexel College of Medicine, followed by her residency in Physical Medicine and Rehabilitation at UMDNJ/Kessler Rehabilitation. Her clinical and research interests include cerebral palsy, stroke and traumatic brain injury.

Max Hurwitz, DO

Dr. Hurwitz is an Assistant Professor in the Department of Physical Medicine and Rehabilitation at the University of Pittsburgh and the Assistant Medical Director of Street Medicine at Pitt. His clinical work and research focus is the intersection of poverty, homelessness, and disability.

Dr. Pugh received his Bachelor of Science degree in Chemistry from the University of Alabama in 2006. He later attended the University of Alabama School of Medicine and graduated in June 2010. He completed his internal medicine internship at the University of Alabama School of Medicine-Montgomery program and residency in Physical Medicine and Rehabilitation at Carolinas Medical Center where he served as Chief Resident in his final year of training. Dr. Pugh is currently an Associate Professor at Wake Forest University School of Medicine, the Medical Director of Carolinas Rehabilitation – Charlotte, the Director of Oncology Rehabilitation for Carolinas Rehabilitation and is Vice Chief of the Rehabilitation Section at Levine Cancer Institute in Charlotte, NC. He was also recently selected as a Fellow of the American Congress of Rehabilitation Medicine (FACRM). Dr. Pugh provides inpatient and outpatient services to patients with all cancer diagnoses including hematologic and solid tumors. His interests include improving comprehensive cancer care delivery throughout the region and watching University of Alabama athletics.

Dr. Salim is an Associate Professor in the Department of PM&R at the University of Rochester in Rochester, NY, and Associate Program Director of the PM&R residency. She completed her residency at Rutgers/Kessler Institute for Rehabilitation in New Jersey. She is board certified in Physical Medicine and Rehabilitation. Her special interests and expertise include inpatient and outpatient rehabilitation, Ultrasound guided injections and spasticity management with botulinum injections.
