

- 1. By **Friday**, **April 11**, please submit via e-mail (<u>jchae@metrohealth.org</u>, <u>Dixie.Aragaki@va.gov</u> and <u>aschnappinger@physiatry.org</u>) a **2-Page** outline of your project including the following:
 - a. Title
 - b. Your onsite supervisor/mentor and their contact information (an external mentor will be assigned to you as well)
 - c. Plan: Identify an area of your practice/department/program, focused on our **Administration theme**, that needs improvement. Describe the current circumstances, relevant data that support this is a problem, and any pertinent background at your institution. State the ultimate goal you hope to achieve.
 - d. Do: Describe the desired outcomes and the requirements needed to achieve them. What changes will you implement. What other key individuals (besides your internal and external mentors) will assist with your project.
 - e. Study: Describe the measurements you will use to assess the success of the plan
 - f. Act: What changes in your practice/department/program do you anticipate as a result of this project.

Please remember that the process of doing the project is as important as the eventual project outcome. Choose a project that can be **completed within 6 months** in time for the 2026 AAP meeting, February 17 - 21, 2026. Please select an <u>on-site mentor</u> based on the subject, content, and the potential support needed for completion of the project. The project should not be an overly onerous time commitment for you or your onsite mentor. Please contact John Chae, Dixie Aragaki and/or Amy Schnappinger if you need more input on the type of project. Sample projects will be available on the AAP site, and you can also visit the ABPMR site for examples of a variety of QIPs.

- Proposals will be reviewed, and feedback will be provided as appropriate by Friday, May
 23. You will also receive your external AAP mentor assignment at this time.
- Once your proposal has been approved, please reach out to your external AAP mentor. You should be in contact with your external AAP mentor on a quarterly basis or so to discuss <u>focus/process</u> issues related to your project. Your on-site mentor will be a very important resource and appropriate individual to discuss <u>content/operational</u> issues.
- 4. You will be initiating your quality improvement project, planning, collecting data, analyzing trends, etc. for the following 6 months (June December 2025).
- 5. A **single PowerPoint slide of a** <u>**poster**</u> summarizing your process improvement project will be due to Drs. Chae and Aragaki and Amy at the AAP office by **Friday, December 12, 2025.**
- 6. You will each bring your poster to Puerto Rico, and all poster presentations will be mounted on Poster Boards at our PAL Reception/Dinner, so that your fellow PAL participants, as well as the PAL Faculty, Mentors and Alumni can review each presentation. We will also select **4 projects to be presented orally** at the meeting in a "Poster Grand Rounds" format (10-minute presentations and 5-minute Q&A). Those selected to present will be notified by January 23, 2026.

PAL 2025 Administration Quality Improvement Project Schedule

2025 PAL Administration Quality Improvement Project Timeline:
